

GLENDALE WATER AND POWER

To preserve our reliable infrastructure and continue the City's pursuit of green initiatives, Glendale Water and Power is currently working on several initiatives and critical capital improvement projects, including:

- City Solar Energy & Storage Projects
- Scholl Canyon Renewable Biogas Project
- Grayson Energy Center Transformation Project
- Distribution System for Building Electrification and Electric Vehicle (EV) Charging
- 4kV to 12 kV Conversion of Distribution Lines

Based on a preliminary analysis, the implementation of these projects will necessitate an increase in electric rates. A comprehensive rate study by customer type will be presented to the Glendale City Council on November 7, 2023.

To learn more about the proposed electric rate adjustments, we invite you to visit GlendaleCA.gov/ProposedElectricRates

REMINDER FOR ALL COMMUNITY MEETINGS
