

"Love the life you live, live the life you love."

-Bob Marley

Mission

Leadership Glendale, enabling and empowering leaders within Glendale with a vision for success, creativity, and innovation and a life lived with integrity and excellence.

"That's been one of my mantras - focus and simplicity. Simple can be harder than complex.: You have to work hard to get your thinking clean to make it simple. But it's worth it in the end because once you get there, you can move mountains."

-Steve Jobs

"Your work is going to fill a large part of your life, and the only way to be truly satisfied is to do what you believe is great work. And the only way to do great work is to love what you do. If you haven't found it yet, keep looking. Don't settle. As with all matters of the heart, you'll know when you find it."

-Steve Jobs

"Creativity is just connecting things. When you ask creative people how they did something, they feel a little guilty because they didn't really do it, they just saw something. It seemed obvious to them after a while. That's because they were able to connect experiences they've had and synthesize new things."

-Steve Jobs
